CAREER OBJECTIVE

As a Java intern, I am eager to apply my academic knowledge and project experience to real-world tasks. I aim to grow into a professional Java developer by contributing to building web applications and supporting the team in delivering high-quality products. I am committed to learning best practices in system design, testing, and deployment while improving my skills and adapting to new challenges. My goal is to create value for the company and gain practical industry experience as a solid foundation for my future career.

ACADEMIC PROJECTS

BookNest -

E-commerce

Application for Books

10/2025 - Present

Role: Full Stack Developer (Individual Project)

Technologies: Java Spring Boot, ReactJS, MySQL

Key Features:

- Contributed to analyzing requirements and designing system architecture with **microservices** and **Domain-Driven Design**.
- Developed responsive frontend using **ReactJS** and backend services with **Spring Boot + MySQL**.
- Implemented **RESTful APIs** with **JWT** authentication, role-based authorization, and asynchronous processing.
- Applied multilingual support (Vietnamese & English), integrated visual charts, and email notifications.
- Built core features including shopping cart, payment module, and admin dashboard.
- Conducted functional testing with Postman to ensure reliability and usability.

**BubbleTea – Product
Management Website
for a Milk Tea Shop**
4/2025 - 7/2025
